Payment Policy

Full payment must be made and received at our office prior to any rendered services. Failure to make full payment may result in a delay, postponement or cancellation services. We reserve the right to transfer decedents to our Funeral Home without prior payment. This decision is common when accommodations are not available for the decedent at the place of death.

Prior to the drafting of any contract for goods or services, the responsible party or the decedent's survivor who is handling the funeral arrangements is entitled to receive a copy of any preneed agreement in the possession of the funeral establishment that has been signed and paid for, in full or in part, by or on behalf of the decedent.

The goods and services shown below are those we can provide to our customers. You may choose only the items you desire. However, any funeral arrangements you select will include a charge for our basic services. If legal or other requirements mean you must buy any items you did not specifically ask for, we will explain the reason in writing on the statement we provide describing the funeral goods and services you selected.

DIRECT CREMATION (NO VIEWING OR CEREMONY)

1. DIRECT CREMATION (Range in price from \$ 1,225. to \$ 13,925.)

If you want to arrange a direct cremation, you can use an alternative container. Alternative containers encase the body and can be made of materials like fiberboard or composition materials (with or without an outside covering). The containers we provide are wood and cardboard.

This fee for Direct Cremation includes ~

- Professional services of funeral director and staff
- Transfer of decedent to funeral home from place of death with local area mileage
- Procurement of the death certificate
- Refrigeration of decedent, up to 20 days (additional days are \$50 per day)
- Local area mileage within a 20 mile radius (excess mileage will be determined by a mileage rate chart)

This fee *does not* include a viewing or ceremony, alternative container, California sales tax, regulatory fee, permit for disposition, certified copies of death certificate or urn.

The crematory will perform the cremation according to its schedule, within a reasonable time-frame after (1) the Doctor or Coroner has signed the death certificate and the disposition permit has been issued through EDRS, (2) mortuary has received payment, and (3) all required forms have been properly completed, signed and received by the mortuary.

For families that wish to expedite this procedure, we do offer a Priority Cremation for an additional fee. This option provides a priority over other scheduled cremations once all three requirements have been fulfilled.

OUTER BURIAL CONTAINERS

In most areas of the country, state and local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.
